

The Most Robust Experiential Learning Platform Available

Over 150 Experiential Learning programs use EduSourced as a single repository for projects, stakeholders and records, alongside features to save time and reduce manual overhead. EduSourced makes EL programs and courses more efficient to administer so educators can focus on delivering high-impact projects.

Benefits

Easy to Implement

Easy onboarding and tailored to your unique EL program. Backed by excellent customer support and continual product updates.

Commercial Grade

Integrates with your LMS and Single Sign On for a seamless user experience. Industry and community partners can access with their own email and securely engage with student teams.

Formalized Experiential Learning

EduSourced supports a less ad-hoc approach to Experiential Learning with a complete record of all projects, deliverables and measured outcomes.

Secure and Private

Schools using EduSourced retain full ownership of their project sponsor relationships and everything is securely stored in a private, encrypted environment.
